

Traineeship Case Study

Hillview Primary School

Oliwia Lewandowska and Hillview Primary School

Hillview Primary School have been working with Prospect Training Services (PTS) for the last 3 years and they have built up an excellent professional working relationship to offer valuable and structured work placements for our learners.

Oliwia completed work experience at Hillview Primary School and she feels that it went really well. She was also completing Maths and English qualifications at PTS. Oliwia said "I'm really thankful for the level of support I received from PTS. A lot of the teachers and staff are very nice and helpful". Oliwia said that PTS supported her by regularly talking to her about what she wanted to do and then helping her achieve it.

Helena Armstrong from Hillview School said Karen (PTS) always introduces me to the learners and keeps in regular contact. They have always found PTS staff very supportive. PTS provide a site visit, a learner key adult contact, a learner mentor and targets for the learner. Helena said "Oliwia was polite, kind, hardworking, eager to learn and listened very carefully to feedback". Helena and the school would definitely recommend PTS' service to other employers. Oliwia said that her point of view has changed a lot since her time with PTS. She now has more idea about what she work like to do and how to achieve it. Oliwia said "I really enjoying it here at PTS and I get all the support that I need". Oliwia said she certainly would recommend PTS and has already recommended PTS to two of her friends who are also on courses here.

To find out more about how traineeships benefit both candidate and employer, contact Ewen Saunders on [01452 886 888](tel:01452886888) or email: ewens@trainandrecruit.com
